

# Kindergarten Learning Intentions

## Term 1, Week 4

### Religious Education

This week we discussed that we belong to different types of families including our home family, church family and school family. We communicated the different ways we share our love with each other.

### English

We are learning to use finger spaces between our words. Spaces are important to ensure we can read our writing. We are also learning to listen for, identify and use phonemes in words when reading and writing. We know that phonemes are the sounds letters can make and are focusing on the following phonemes over the first part of this term:

c o p t m a g s

### Mathematics

We are learning to subitise small collections of objects. This helps us to recognise and visualise numbers.

### PDHPE and History

We are learning that we are unique and have our own special stories that shape us. Yesterday, we received a Home Task to explore what is special in our families. Please see Mrs McLaren or Miss Pelling should you require a new home task sheet, which is due back to school **next Thursday**.

**Ash Wednesday** is next week. We will attend a solemn Mass with the whole school and learn about the holy day in the Church calendar.

**Mrs McLaren and Miss Pelling.**
